OVERVIEW OF PANEL

Join the Native Nations Center, in collaboration with the Associate Vice President of Tribal Relations and the Center for Faculty Excellence, for the next installment of the Ethical Tribal Engagement Series. This event features a panel of experts exploring key topics, including tribal governance, data sovereignty, and the implications of AI in tribal contexts. The discussion will address privacy, ethics, and responsible adoption of AI, alongside the legal and policy considerations for tribal sovereignty and decision-making.

*** Legislator Warren Queton is joining the panel in place of Shawnee Chief Benjamin J. Barnes, who is unable to attend.**
