Oklahoma Meso-Scale Integrated Sociogeographic Network (M-SISNet)

The data below were collected with support from the National Science Foundation under Grant No. IIA-1301789.

The Oklahoma Weather, Society and Government survey measures Oklahomans' perceptions of weather in our state, and also asks about their views on government policies and societal issues, to help understand how those perceptions and views might shape how Oklahomans use water and energy.

Since winter 2014, at the end of each meteorological season (winter, spring, summer and fall) the University of Oklahoma's Center for Risk and Crisis Management (CRCM) has surveyed thousands of people all
